Experience

Junior UX Developer
Friday Digital Agency

Hardenberg, OV
May 2025 — Present

I translate client wishes into new features, turning Figma designs into production code. I improve accessibility and handle bug fixes across client projects. I helped the design team adopt a more code-ready way of designing so tools like Figma MCP can interpret it more correctly.

Developer Intern
Friday Digital Agency

Hardenberg, OV
September 2024 — January 2025

I worked on client webshop projects, translating Figma designs into frontend components. I picked up tickets independently, delivered new features, and resolved frontend bugs across multiple projects.

Store Employee
Spar

Hardenberg, OV
July 2020 — December 2025

Part-time job, helping manage daily operations at the supermarket

Education

Deltion College
MBO 4, Software Developer
